To the Amphenol Socapex stakeholders

Subject: update of the COVID-19 health crisis impact on Amphenol Socapex. Communication N°6

Madam, Sir,

We are committed to regular communication and updates on our actions, in order to address the evolving coronavirus situation.

On the Thyez site, all our workshops are open. Our production capacity is close to 80%, concentrating working hours from Monday to Thursday. Your usual contacts, who may or may not be among the 126 people who telework, are operational from Monday to Friday.

Our site in Pune remains closed until May 3rd, as imposed by the government. Even though no production is possible at the moment, we have 74 employees working from home. We are working with our sister divisions across the world to limit the impact of the production stoppage on the supply of standard and multi-source products. We are also preparing for the resumption of operations as soon as we are authorized to do so.

We believe that it is our civic duty to protect the health of the people in our company as a priority, while continuing any activity, when authorized to do so.

As this unprecedented force majeure event continues to unfold, we are not certain that we will be able to meet all our commitments already made, particularly those related to the delivery dates of our products. We apologize in advance and will inform you if any postponements arise.

Be sure that we will work with you to address any problems created by this unprecedented crisis, in a spirit of solidarity and mutual support.

The Amphenol Socapex teams are on your side, more than ever.

Amphenol Socapex
