RE: Murata Factory Status Updates

May 15, 2020

As previously informed, the Covid-19 (a.k.a. Coronavirus) situation is very fluid and continues to progress. We continue to monitor the safety and health conditions of our colleagues. Murata factory teams have been doing their best to support the local communities and reduce the spread of the virus. Murata will continue to work with the local authorities and community to find ways to reduce any further spread of the virus.

As of this writing, please find updates for the following production locations that have been impacted by COVID-19:

- **Japan:**
  - One case of COVID-19 was confirmed on April 25th at the TMC (Toyama) factory. After a 2-day shutdown for cleaning and continued safety protocols, TMC resumed full operation on April 27th.
  - After one confirmed case on April 14th, the IMC (Izumo) factory resumed full operation on April 17th.
  - After one confirmed case on April 4th, the FMC (Fukui) factory resumed full operation on April 8th.

- **China:**
  - Factories in Wuxi, Shenzhen, DongGuan, and Zhuhai are in operation but, not yet back to full production.

- **Philippines:**
  - Partial Government reopening has been approved. Murata Philippine’s (PMM) will resume shipments from May 18th. Limited factory operation has resumed under strict health and safety protocols. With our current ramp-up schedule, full production is targeted for August 2020.

- **Malaysia:**
  - Murata Electronics (Malaysia) Sdn. Bhd. (i.e. MME) restarted production on a very limited basis on April 1st. As of May 8th, the Malaysia government allowed the electronics component industry to restart full operation. MME is now working to get back to 100% operation asap.
  - Toko Electronics (Sarawak) Sdn. Bhd. (i.e. TSR) restarted limited shipments of existing inventory on March 27th. TSR has also resumed limited production. But, the region where TSR is located has not yet been approved by the government for a return to full-operation.

- **United Kingdom:**
  - Our NCL Milton Keynes, UK facility restarted very limited production on April 20th. With the announcement of a new UK government directive, NCL will begin increasing production capability from May 18th.

Our Service & Supply Chain teams continue to monitor the situation. Any delivery schedule adjustments will be communicated accordingly as information becomes available and as required. Please address any questions you may have to your local Murata Sales team members.

We will continue to update the situation as timely as possible.
